

WHY DOES BRECK NEED BROADBAND?

Owning our broadband future gives the Town of Breckenridge a leg up on any technological advances to come.

INTERNET SERVICE

Stay in the loop of what's new, viral, and trending across the country.

Working remotely is a growing reality for career growth and flexibility

See your download times greatly reduce, even when Town is at its busiest.

BUSINESS BENEFITS

Communication between businesses and customers becomes faster.

As local businesses move towards online solutions, connection becomes imperative to competition.

Better connection ensures that everything gets submitted and processed on time.

HEALTH CARE

Better data collection means better health tracking and long term solutions.

As medical records move to all electronic, reliable connection becomes critical.

Residents can take advantage of telemedicine for better access and more flexible care.

SMART CITY FUTURE

Broadband can provide access to better crowd management and parking solutions.

Preparing for the future of technology starts with the infrastructure to support new ideas.

Intelligent traffic applications can help divert congestion and reduce emissions in town.
